

Overview

In the Spotlight is Lonsec's new initiative that showcases a range of fund managers and products rated by Lonsec in a one-on-one interview style video. In the Spotlight aims to highlight the strengths of these fund managers and provide insight into their investment strategies and processes.

The Lonsec team will work with you to map out the interview so that you get to explain your approach to investing in detail, what you look for when assessing companies to include in your fund, as well as what makes your team high functioning. On the day of the recording, the production team guide you through the recording process to create high quality video output that can be used across all your media platforms and marketing campaigns.

In the Spotlight videos will also be distributed through Lonsec channels including our websites and award-winning platform iRate to maximise the reach to Australian financial advisers.

Lonsec is uniquely positioned within the Australian financial services industry and many leading advice practices looking to us to help them make better investment decisions. Partnering with us on In the Spotlight can help you reach this wider audience and amplify your brand in the market.
